Notes:

- 1) Data provided by Counsel
- 2) Number of TAT members with birth date prior to November 7, 2000 sorted by jurisdiction identified in mailing address
- 3) Travel cost (only) to bring 30% of voting age tribal members who reside outside of North Dakota to New Town to vote
- 4) Analysis is based on the following projections: 30% voter participation if absentee votes were available. Travel costs are 2018 federal rates of \$.545 per mile, \$93 for lodging per day, and \$51 for meals per day; as many as 600 miles per day.
- 5) Conservative analysis: analysis is based on 30% voter participation; travel cost would be greater if voter participation is higher; 30% participation leads to travel cost of \$1,859,438; 40% participation leads to a travel cost of \$2,479,250
- 6) Conservative analysis: cost does not include impacts such as lost work time (wages), cost for replacement services (e.g., child or family member care), or use of employment leave time
- 7) Conservative analysis: does not include travel cost for members residing in North Dakota but not on the reservation
- 8) Conservative analysis: mileage is based on direct lines to New Town; mileage is not based on indirect routes of following roads.
- 9) Need to adjust the impact to reflect the cost of administering an increased number of absentee ballots; but this adjustment is still a minor dollar amount

**** Does not distinguish between members living in North Dakota versus those living on the Fort Berthold Reservation.**

North American map indicating 500, 1000 and 1500 miles from New Town, North Dakota
The shape of the outlines reflects the curvature of the earth.
